

# STEFAN PIERCE KUHL

Director of Technology & Project Management  
Minneapolis, Minnesota

## SUMMARY

For over a decade I have helped aim organizations forward, helping them deliver innovative, scalable solutions. Throughout many roles my goal has always been the same: implement the change that is needed to move forward. I'm passionate about implementing new technologies, processes and solutions. Energized by intentional conversations with others, and coffee.

## WORK EXPERIENCE

### CREATIVE DIRECTOR, YOUTHWORKS (REAL RESOURCES) – 2026-PRESENT

Oversee organizations visual identity & web presence through a full rebrand. Honoring over 30 years of history, while attempting to create a fresh yet grounded complete brand.

### DIRECTOR OF TECHNOLOGY & PROJECT MANAGEMENT, YOUTHWORKS (REAL RESOURCES) – 2017-PRESENT

- Work directly with the senior leadership team, insuring budget accountability, providing direction & planning for IT projects, as well as leading key cross-departmental projects.
- Fully own CRM (Microsoft Dynamics 365), insuring data integrity, security, and supporting all updates & improvements to the system. Managing 30+ users, full integration of products with our website, while developing complex workflows that promote simplicity for staff and users.
- Manage and lead IT Contractors, overseeing web development, website management, and marketing/ad specialists.
- Lead the organizations IT infrastructure, including cyber-security, full transition to cloud based systems, while over-seeing all web development (including building a fully custom registration system that handles 6000+ users per year).
- Oversee multiple departments budgets, helping streamline and reduce annual spend by over 50%, transitioning away from a MSP provider, while managing a quarter of a million dollar budget.

### BUSINESS ANALYST, BETHEL UNIVERSITY – 2017

- Act as liaison for department stakeholders, eliciting requirements while providing solutions in regards to business processes and organizational needs.
- Provide stakeholders consistent and reliable communication, identifying problems while insuring efficient resolutions.

### APPLICATION INTEGRATION SPECIALIST, BETHEL UNIVERSITY – 2014-2017

- Implement university wide applications utilizing key project management skills, while managing scope, time and cost through detailed timelines and task management.
- Integrate applications into complex technical environment, ensuring stability and communication with key infrastructure.
- Oversee and maintain support, updates, and communication for 150+ applications, supporting Unix and Windows OS, Apache Tomcat and IIS web servers, and configuring integration with SQL and Oracle databases.

## **PREVIOUS EXPERIENCE**

**DESKTOP/LAN SPECIALIST, BETHEL UNIVERSITY – 2012-2014**

**PROJECT SPECIALIST, BETHEL UNIVERSITY – 2011-2012**

## **EDUCATION**

**ST. THOMAS UNIVERSITY – 2016**

Certified Professional Project Manager

**BETHEL UNIVERSITY – 2011**

Bachelor of Arts, Reconciliation Studies

Bachelor of Arts, Youth Ministry

## **KEY PROJECTS**

- Create and manage development of web application to handle all release forms & waivers for trip participants (6000+ users per year). Aimed at being user friendly, and keeping confidential user data secure, following HIPAA requirements.
- Migrate Dynamics CRM 2013 Server data to Dynamics 365 Cloud for all business units. Moving over 50,000+ contacts, 100+ internal users, while mapping all data for Contacts, Leads, Orders, Products, and multiple custom entities critical to our organizations workflows.
- Implement and migrate all university users to Suite from on-premise Microsoft Exchange servers. Including user accounts (10,000+), and all associated data (emails, contacts, calendars, etc.)
- Project manage annual theme curriculum, including guided daily journals, visual identity, and integrated videos for 6000+ participants each summer. Overseeing writers, designers, developers, as well as video production.
- Oversee organizations full rebrand, helping establish an updated vision statement, full visual identity, as well as new web presence built from the ground up. (In Progress)
